### Response to Amendment

The following is in response to the amendment filed 3/24/04:

An action on the merits of claims 63-65 is contained herein below.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

### DOUBLE PATENTING

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 63 and 65 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 5,994,517 ('517). An obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but an examined application claim is not patentably distinct from the reference claims(s) because the examined claim is either anticipated by, or would have been obvious over, the reference claims(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998);

Art Unit: 1623

*In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985). Although the conflicting claims are not identical, they are not patentably distinct from each other because claim 1 of '517 is generic to all that is recited in claims 63 and 65. That is claims 63 and 65 fall entirely within the scope of claim 1.

Claims 63 and 65 are drawn to a compound and composition containing a glycopeptide with a linker. The claimed glycopeptide has 3 components, a carbohydrate ligand- YEE(ahGalNAc) which recognizes hepatic receptors - , a bifunctional linker and an oligonucleotide derivative (5FU). Claim 1 of '517 encompasses the species set forth in claims 63 and 65 as it is generically drawn to a delivery system comprising a carbohydrate ligand which binds specifically to a hepatic receptor, a bifunctional linker and a biologically stable oligonucleotide derivative.

The instant claims differ from that of '517 in that they do not broadly recite the carbohydrate ligand, linker or oligonucleotide.

It would have been obvious to obtain the compound set forth in instant claims 63 and 65 given the genus set forth in claim 1 of '517.

The instant claims contain the same functionalities set forth in claim 1 of '517, with regards to specificity of the carbohydrate ligand, the oligonucleotide derivative and a bifunctional linker serving to link thio and amide groups of the oligonucleotide and glycopeptide, as such, one of skill in the art would arrive at the compound of claims 63 and 65 provided with the conjugate template set forth in claim 1 of '517.

#### Allowable Subject Matter

Claim 64 appears to contain subject matter allowable over the prior art cited supra.

Art Unit: 1623

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
